I don't think there will be court appearances, but there may be a need to involve your office in looking at contracts with parties such as Mt Sinai, who proposed to develop a program for pediatric health units in the VI. There was some language that a VI office was having problems with in the contract and the whole thing stalled from the time Dawn negotiated through the present.

I'll send you the invite. If you want, you can reach out to me for more information prior to or after the call. This is however a VI TSEP and the new language no longer requires EPA consultation. Of course, we remain available to assist and consult with if the VI wishes.

Morning:

I don't recall participating in this, but I can make myself available to participate. If any type of court appearance or representation is required, only the AG's office can do that, so it wouldn't hurt for me to understand what is going on.

They have internal counsel, but I just wanted to make sure, given it is a provision of the CD and CD Modification. Pamela may wish to join us as I recollect there were some issues with the PESHU contract language that she might be aware of.

Hope all is well with you. And ditto on best regards.

Thanks, Flaire. Unless you hear from me otherwise, I'll not participate.

How you're well.

When Lorie Schmidt left her detail at the VIDPNR, she apologized for not moving forward on Territorial Supplemental Projects that were provided for under the CD and asked that I get in touch with Austin and Jedidiah to discuss them further. I wondered if either or both of you would want to be present on such a call. You may recall Dawn Henry and I revised the original CD terms relating to the TSEP and that they are in the current CD Modification recently lodged with the Court. I tentatively scheduled a meeting with Jedidiah, Austin and Lorie if she wishes to attend for next Wednesday 4-4:30. Do you wish to attend? I can change that if neither of you can attend at that time.
